

PRESS RELEASE

Making of the Hyderabad Metro Rail with National Geographic Channel

National Geographic Channel showcases "Connecting the city of Nizams: Hyderabad Metro" in association with L&T Metro Rail (Hyderabad) Limited.

After roaring success in Delhi and Mumbai, Hyderabad is all set to have a metro network soon. To showcase the making of what will be an iconic structure for the city, **National Geographic Channel**, in association with **L&T Metro Rail (Hyderabad) Limited**, is launching "***Connecting the city of Nizams: Hyderabad Metro***" on **Sunday, 19th October 2014, 6:00 pm.**

The show will feature the actual work and behind the scenes of building the metro rail network. It will also focus on the collaboration of some of the best engineers, planners and designers in the city to bring forth the flawless and the needful railway project. India's largest construction and technology giant L&T bringing the largest private and public sector together will make the dream come true for the people of Hyderabad.

While the city gears up for the metro, not just the planners but all citizens are being made the 'ambassadors' of the new mode of transport and will promote it aggressively. With a brilliant construction in the pipeline, Hyderabad is all set to welcome the Metro in their lives.

Megastructures

Delve into the world of architectural masterpieces, mammoth structures and engineering feats with Megastructures. Each episode explores the drama, personal stories and remarkable technological innovation behind some of the world's most impressive structures: skyscrapers, bridges, tunnels, road network, highways, sea vessels, and more are revealed in intimate detail. And each with a story to tell.

An eye-popping look at some of the greatest structures and machines ever created by mankind, 'Megastructures' is an inside into the incredible feats of modern engineering a deep dive into the design, construction, operation and inner-workings of some of the most iconic structures in the world, the show unravels the art and science that goes behind creating these engineering marvels

Witness '***Connecting the city of Nizams: Hyderabad Metro***' premiere on **Sunday, 19th October 2014, 6:00 pm** on National Geographic Channel.
